

şirketin faaliyet konuları arasında “kara yolu ile yük taşımacılığı yapmak için gerekli araç makine ve vasıtaları almak satmak” ibaresi olduğu şirketin söz konusu işler ile iştigal etmesinin önünde yasal bir engelin bulunmadığı 2 nci el motorlu kara taşıtı ticareti faaliyetini gerçekleştirmek için alınması gereken yetki belgesinin bulunmamasının söz konusu iş ile iştigal etmediği

The following table shows the results of the regression analysis for the dependent variable *Y* (in thousands of dollars) against the independent variable *X* (in thousands of dollars). The regression equation is $\hat{Y} = 1.2X + 0.5$. The coefficient of determination is $R^2 = 0.85$. The standard error of the estimate is 0.3. The t-statistic for the slope coefficient is 12.5, and the p-value is 0.0001. The F-statistic is 156.25, and the p-value is 0.0001. The Durbin-Watson statistic is 1.8. The adjusted R-squared is 0.83. The constant term is 0.5, and its t-statistic is 0.5, with a p-value of 0.62. The regression line is shown in the graph below.
